## P. E. BRIDGE IS BEING ERECTED

STRUCTURE NINETY FEET IN LENGTH IS BEING PUT OVER VERDUGO WASH

## LOCAL MAN FOREMAN

JOHN F. QUINN IN CHARGE OF WORK, WHICH WILL BE DONE IN TWO MONTHS

Within two months, possibly only six weeks, Pacific Electric cars will be running over a brand-new steel bridge set on concrete piers and abutments to span Verdugo Wash where it crosses Brand boulevard. It all depends on the weather, says John F. Quinn, who is in charge of the work, and he is prepared for any kind, as he has a vivid memory of February weather along the Wash in 1914, of which more anon.

Just now the east roadway across the Wash is blocked by the paraphernalia used in constructing the Pacific Electric bridge. A concrete mixer rests on the north span and piles of cement and crushed rock occupy nearly all the rest of the space. A single track bridge is being constructed, that being the policy of the Pacific Electric now to save expense, for with the automatic switches installed at either end of the bridge practically no delay is experienced.

Structure Ninety Feet Long The bridge is to be of steel, ninety feet long and resting on two abutments and two intermediate piers, all of concrete, reinforced. The abutments will be continued west to meet the roadway abutments and thus form continuous walls to the Wash channel.

The construction foreman, John F. Quinn, is a Glendale man, and has been supervising the building of bridges for the Pacific Electric for several years. He has just finished a long bridge over the Santa Ana river between Garden Grove and Santa Ana. He now lives at 432 Arden avenue in a new house he recently had built.

Recalls Flood of 1914 In 1914, the year of the great flood, he lived a block further east on Arden. When he got home on February 20 of that year he found the Wash a roaring torrent that had eaten away several acres of ground along its south bank, tumbled three large houses into its waters, tearing one of them to pieces.

It had eaten its way across the street and begun to tear out a portion of Mr. Quinn's front yard, so he moved his family out of the house. That very day, however, the waters began to subside and the danger was ended.

## TWO BIRTHDAYS

DOUBLE CELEBRATION IS HELD IN JOHN ESTERLY HOME, 211 S. KENILWORTH

Mrs. John Esterly, 211 South Kenilworth avenue, mother of A. J. Esterly, 363 Salem street, had a birthday yesterday. The natal anniversary of Mrs. A. J. Esterly's brother, George H. Nenstiel, who is her house guest from the east, occurred on Tuesday of this week.

Wishing to honor both birthdays, but feeling that the preparations for two parties in one week was rather strenuous, Mrs. A. J. Esterly hit upon the idea of a double, advance-birthday party.

She chose last Sunday for the event, when she entertained with a pretty 1 o'clock dinner in honor of the two birthdays. A huge birthday cake, with the number of years of each celebrant's life done in pink candles, centered the table. The festive color scheme of pink and green was further carried out with pink carnations commingled with festoons of asparagus fern. Each of the honor guests was presented with a bouquet of carnations containing one flower for each year of his life—"and one to grow on."

Covers were laid for Mr. and Mrs. John Esterly, Mr. and Mrs. W. W. Esterly of Long Beach, Miss Helen Esterly, George H. Nenstiel and the host and hostess.

OFFER CORN RELIEF BUREAU CHICAGO, Jan. 15.—J. E. Howard, president of the American Farm bureau, announced today the farmers of the nation stand ready to give enough corn to appease hunger all over the world if others will transport it.

## ONE DEAD, TWO SHOT IN DARING ROBBERY

(Special Service to Glendale Evening News)

DALLAS, Tex., Jan. 15.—With one man dead beneath a racing automobile and another in custody following a spectacular hold-up of the Jackson street postoffice in which two postal clerks were shot and a federal reserve bank shipment stolen, additional arrests were expected today by the police.

Six men participated in the robbery. They obtained between a few thousand and \$20,000. About \$28,000 in mutilated money was also taken. One of the bandits was killed when their automobile was wrecked, but the others, except one, escaped.

## FEAR LYNCHING, SO TRANSFER PRISONERS

(Special Service to Glendale Evening News)

SACRAMENTO, Jan. 15.—Owen Davis and George Schulte, alleged bandits charged with killing John Rieves, Redding, California, marshal, were placed in the Sacramento county jail today for safety's sake. They were removed from the Oroville jail after a report reached Oroville that a crowd of men had left Redding to lynch them. Feeling in Redding was reported high.

A charge of murder was placed against Davis today by the Redding authorities.

## OFFER BRIAND PREMIERSHIP OF FRANCE

(Special Service to Glendale Evening News)

PARIS, Jan. 15.—Aristide Briand, former premier of France, has been asked by President Millerand to accept the premiership and form a new cabinet, following Premier Peret's announcement today that he was unable to perform that task. Briand was to reply to Millerand this evening.

## HIGHEST IN WORLD

HUGE DAM TO BE BUILT IN PACOIMA CANYON; SUMMER HOMES TO BE REMOVED

That the Pacoima dam will be constructed, creating a lake three and one-half miles long and 300 or more feet deep in places, forcing the removal to higher ground of many summer cabins owned by Glendale residents and others, seems now a certainty, as it is announced that the board of supervisors has signed a contract with the Constant Angle Arch Dam company to prepare plans and specifications for and supervise the construction of the proposed dam, the company to receive 4 per cent of the cost of the work, which is estimated will be \$1,500,000.

The dam will be the highest in the world, 385 feet, and will require 142,000 cubic yards of concrete. Pasadena Needs More Water Just as residents of neighboring cities had settled down to the belief that Devil's Gate dam would impound sufficient water to supply the city of Pasadena, comes the announcement that steps are being taken by that city to provide a certain and adequate supply for its own citizens and those of South Pasadena and Alhambra as well, by diverting water from the Mojave river, Grass valley, Holcomb and Deep creeks and Little Bear lake.

The proposed project would cost \$10,000,000, it is estimated, and would involve the purchase of the Arrowhead Reservoir & Power Co.'s dam that impounds the waters of Little Bear lake.

Mr. Brownell is taking a real vacation and is enjoying the attractions of southern California. He expressed himself as being favorably impressed with Glendale.

## DOUBLE SERVICE IN INSTALLATION

## OFFICIALS ATTENDED

SOCIAL GATHERING FOLLOWS IMPRESSIVE CEREMONIES BY ORGANIZATIONS

An event long to be remembered was the installation of officers of N. P. Banks Post, G. A. R., and the N. P. Banks Post, Woman's Relief Corps, yesterday.

Many members from other posts and relief corps were guests of the occasion. The ceremonies occupied the entire day, the Post installing in the morning, the Relief Corps in the afternoon.

Past Commander Martin of Los Angeles was the installing officer for the Post; the installing conductor was Thomas Hull, and Robert Taylor officiated as officer of the day.

Post officers installed were: Commander, A. W. Seudder; senior vice-commander, S. Houdyshe; junior vice-commander, Comrade Fuller; quartermaster, T. A. Robinson; adjutant, T. M. Barrett; officer of the day, Robert Taylor; chaplain, C. R. Norton; surgeon, Dr. A. H. Guernsey; sergeant major, William Collins; color bearer, Thomas Gillette; sentinel, W. H. In the afternoon the installation of the Relief Corps took place. The installing officer was Department President Ella French, of Bartlett Logan Corps. She was accompanied by her staff. The installing conductor was Mrs. Emma Scheer.

Officers installed were: President, Alma Dutton; senior vice-president, Pearl Gillette; junior vice-president, (Continued on Page 3)

## GETS EVIDENCE

M. H. FINN IS POSITIVE THAT THE EVENING NEWS IS THOROUGHLY READ

M. H. Finn knows that people read The Evening News, not only the news matter but the ads. When he opened his barber shop a few days ago he announced it beforehand by means of a goodly-sized ad and a modest notice of it was given in the news columns, also, in which it was stated he came here from Brockton, Mass.

During the forenoon of the first day in his shop eight people who had formerly lived in or near Brockton came and told him they had seen his ad and the news item and wanted to get acquainted. One of these men, Percy Dykeman, a painter and decorator, told Mr. Finn he was about ready to go back to Brockton as there seemed to be no work here in his line. He was urged by Mr. Finn to advertise in The Evening News. He did so and has already secured contracts for the painting of two houses as a result of that one small ad.

## BACK IN CITY

WALLACE CHRISTY AND WIFE HOME FROM TRIP TO IMPERIAL VALLEY

Wallace Christy and wife returned home yesterday from a motor trip to Imperial valley to visit relatives of the latter. They started on Wednesday of last week, going by way of San Diego, and visiting many points in the valley. Wallace says the big drop in the price of cotton has greatly depressed the ranchers who raised so much of that staple, but they are looking hopefully to the future.

The cantaloupe and watermelon acreage will be larger than last year's if the ranchers can be assured of reasonable freight and express rates, otherwise it will be greatly lessened. They came back by way of Riverside.

Wallace says he and his father are planning a trip to Central and Northern California for next week.

## ALLEGED FIRE PLOT FOILED BY POLICEMEN

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 15.—What is believed by the police to have been an attempt to destroy the Patton Paint company on South Main street by fire bugs early today was frustrated when two policemen and a citizen smashed down the door and extinguished the flames. Guests of a hotel above the paint store were unaware that a fire was burning beneath them, and their sleep was not disturbed because of the presence of mind of the officers.

## WOMAN BREAKS HER LONG HUNGER STRIKE

Real estate firms of Glendale are making liberal subscriptions to the city's float fund. Mrs. Mabel L. Tight, member of the float committee, having the list for the real estate men in charge. But some realty firms, although visited several times by Mrs. Tight, have so far failed to sign up.

The list is to be published in The Evening News of next Tuesday, all of the real estate men contributing being placed under one classification. It is the desire of the committee that the list, as it concerns the realty men, be 100 per cent. Therefore, any real estate firm that has not yet subscribed is asked to leave a check with R. F. Kitterman, chairman of the committee, at the First National bank before noon on Monday.

## WOMAN'S UNION

INTERESTING PROGRAM GIVEN AT BAPTIST GATHERING HELD ON THURSDAY

The program feature of the well-attended, all-day meeting held by the Woman's Union of the Baptist church on Thursday was an interesting talk by Mrs. E. D. Yard, president of the Glendale Welfare Council, on the wide scope of the work of the council. This talk was in keeping with the topic of the day, "Homes and Housing," as were also the devotionals led by Mrs. Duxsee, taken from Matthew 18 and first Corinthians 13.

Mrs. Ray Bentley's singing of "Mother Machree" was a much-appreciated feature of the program, which was followed by a social hour. Sewing for charity occupied the morning hours and there was a short business session. A dinner was served at the noon hour.

## Mrs. Adolf Hahn Dies

Funeral services will be held in the Little Church of the Flowers on Monday, 3 p. m., Pulliam & Kiefer in charge.

## SURPRISE SHOWER

PROFESSOR COOKMAN AND HIS BRIDE ARE HONOR GUESTS AT SOCIAL GATHERING

Very thoughtful and equally unique was the surprise shower arranged by the young men's and young women's classes of West Glendale Methodist church for Professor and Mrs. Alfred Cookman.

The new home of the T. J. Fambrough family on South Orange street was the scene of the festivities, which were participated in by about thirty young people. The Cookmans, who had been invited to spend the evening there, were greatly surprised when they were confronted on their arrival by this large party of their young friends, each one of them bearing a present of a glass of jelly or a jar of jam. A "jelly shower" is a novel innovation in the line of showers for newly-weds, and certainly a thoughtful one, inasmuch as Mrs. Cookman, coming from her Eastern home here, has had no chance to preserve fruit for her new cupboard.

Games and music were the pastimes of the evening and refreshments had been provided also by the young hosts and hostesses.

## HIGHWAY PLANS BEING OUTLINED

COMPREHENSIVE SYSTEM OF ROADS IS DISCUSSED BY VARIOUS OFFICIALS

## PLANS ARE SHOWN

EXTENSIONS AND ADDITIONS WOULD BE OF UNUSUAL BENEFIT HERE, CLAIM

The defeat of the project to make Commercial street the western gateway to the city from the San Fernando Road by means of a boulevard 120 feet wide that would have, it is claimed, diverted much auto passenger travel through the heart of the city, is a disappointment to many citizens, but as it was opposed by a goodly majority of those directly interested financially, no fault should be found with the decision as this is a country where majorities are supposed to rule, say those interested in the matter.

But this is only one of several projects that have been studied out to perfect Glendale's highway system. The others are: Sycamore canyon boulevard, a new highway to extend from Verdugo Road west and then south to a point between Windsor Road and Acacia Ave., which was designed to not only provide a needed thoroughfare between Adams and Verdugo Road across the east end of the city and eventually a right of way for a loop of the Pacific Electric to serve that part of the city; the Patterson avenue extensions, east from Central avenue to Brand boulevard and west from its present terminus, across the Wash and to the junction of Grand View avenue and San Fernando Road, providing an entrance to the city from the northwest, leading past the city park and connecting with the main north and south thoroughfares, Brand boulevard and Central avenue; Monterey Road, to extend west from Verdugo Road to the Wash, the south bank of which it would border as far as Brand boulevard, where it would cross, then extend on west along both sides of the Pacific Electric Burbank line to the west city limits and on to Burbank; an extension of Brand boulevard to the north, curving west and (Continued on Page 3)

## SLIGHT INJURY

CITRUS CROP OF SOUTHLAND  
PASSES THROUGH COLD IN  
SAFETY, SAYS EXCHANGE

An official statement issued by the  
California Fruit Growers' exchange  
is to the effect that the citrus crop  
of southern California has so far  
passed through the cold period with-  
out serious injury.

It is admitted by the exchange that  
the oranges in a few exposed spots  
were nipped by the cold last Mon-  
day and Tuesday, but not hard  
enough to damage the fruit for mar-  
ket, it is claimed.

The temperature was lowest Mon-  
day and Tuesday nights and on Wed-  
nesday went up some, so that little  
orchard heating was required, ac-  
cording to the exchange report.

MASONIC MEMBERS OF EAGLE  
ROCK CITY ARE PLANNING  
TO OBTAIN HOME

Members of Eagle Rock blue

preliminary plans, according to in-  
formation brought to Glendale from  
Eagle Rock City, to build a Masonic  
temple in which its meetings, and  
those of the Order of the Eastern  
Star may be held.

It is stated that it is the intention  
to build a home costing about \$20,-  
000 on a lot which is available as  
soon as a building plan advanced by  
a committee is adopted.

As part of the plan, the proposed  
home will also be used as a club-  
house for members of the Masonic  
order, there being no club for men  
in Eagle Rock City at present.

## THE PROVIDENT

had a splendid year's business in  
1920—the largest ever—having  
written over a hundred millions of  
new insurance and having had a  
mortality of only 50 per cent of  
the expected!

You may imagine what such a  
saving in death-cost means to the  
insured.

The "Provident" is unique in a  
number of things among life in-  
surance companies, one of which  
is its advocacy of the Endowment  
form, and is the only company in  
the world, I believe, which pays  
more in endowments to the living  
than it does to the estates of the  
deceased.

Wouldn't you like to have a con-  
tract in such a company? There  
is nothing to equal it and THERE  
IS NO SUBSTITUTE.

## HIGHWAY PLANS

EXTENSIVE SYSTEM OF ROADS  
IS OUTLINED FOR BENEFIT  
OF THIS SECTION

(Continued from Page One)  
following the base of Verdugo moun-  
tains until it merges into West Moun-  
tain street at Grant View avenue;  
a change in Brand boulevard,  
south, so it will join San Fernando  
Road in an easterly curve; the con-  
struction of a foothill boulevard  
from East Mountain street along the  
foot of Verdugo mountains to Verdu-  
go Canyon Road.

Made Necessary by Growth  
These extensions and additions  
will of course require years to work  
out, but they are made necessary by  
Glendale's amazing growth and if  
they can be carried through will give  
a highway system unequalled.

It might be stated that eventually  
Sycamore Canyon boulevard will be  
extended south to the city limits and  
then southeasterly, skirting the base  
of the hills to a junction with Glen-  
dale avenue.

## MEMBERSHIP DRIVE

P. T. A. OF PACIFIC AVENUE  
SCHOOL LIST IS NOW CLOSE  
TO 600 MARK

Under the leadership of two able  
captains, Mrs. George Herald, 118  
West Windsor Road, and Mrs. Ray  
Phillips, 363 Ivy street, the mem-  
bership drive of the Pacific Avenue P.  
T. A. has brought the membership  
of the association very close to the  
600 mark. The children of the  
school were as active as their elders  
in the campaign.

The meeting Thursday afternoon  
at the school in charge of the presi-  
dent, Mrs. P. O. Lucas, was well at-  
tended and characterized by enthusi-  
astic interest.

J. H. Garney, recently from Kan-  
sas City, but now a resident of Glen-  
dale, gave a short talk. A pic-  
ture of the room where the meet-  
ing was held brought back to  
Mr. Garney pleasant memories of  
the friendly relations he had enjoyed  
with the Lincoln family in his school  
days, when he and "Tad" Lincoln  
were schoolmates.

Mrs. Herald's solo, "Love Garden  
of Roses," was received so enthusi-  
astically that she was forced to re-  
spond to an encore with "Just Hold  
My Hands Tonight." She was accom-  
panied on the piano by Mrs. T. A.  
Wright.

The negro population of Baltimore  
is 108,390; the white population is  
625,974.

## A Great Relief Organization

"The laundry," said the head of a great federation of Ameri-  
can women in a recently published interview, "is the greatest  
relief organization that has ever come to the aid of the house-  
wives of America—it has eliminated 'Blue Monday.'"

This great organization is at your service today, tomorrow,  
whenever you say the word.

You will find it all this woman says of it and we try to make  
it mean a little more.

Just bundle up everything that needs washing and phone for  
one of our wagons. America's great relief organization will  
soon be at your door.

## PUPILS GIVE AID

EIGHTH GRADE MEMBERS AND  
PARENT-TEACHER BODY  
SEEKING CAFETERIA

The pupils of the eighth grade and  
the members of the intermediate  
school Parent-Teacher association  
conducted a food sale at the cafeteri-  
a of the school yesterday noon.  
Eighty-five dollars was cleared,  
which will be added to the fund be-  
ing raised for the new cafeteria. The  
association is endeavoring to raise  
\$400.

Next week a food sale will be given  
by the pupils of the seventh grade,  
also under the auspices of the Pa-  
rent-Teacher association. Interest  
is being shown in these sales to see  
which class will raise the most  
money. The campaign to raise  
money includes a benefit perform-  
ance to be given at the Palace Grand  
theatre early in February.

## MORE "TOURISTS" IN COUNTY

LOS ANGELES, Jan. 15.—County  
Recorder Logan announced today  
that for the month of December  
there were in the county 1,661 births  
and 1,234 deaths. These figures  
show that if there was a high wall  
about the county the population  
would still increase, says Logan.

## WANTS COLLEGE

**AGRICULTURAL SCHOOL MAY BE LOCATED IN VALLEY IF PLANS FAVORED**

Still another movement in favor of southern California has been launched in the state legislature, according to word received by The Evening News from Sacramento. Assemblyman Hume of Oxnard has introduced a resolution looking to the establishment of an agricultural college in the San Fernando valley.

While no location is specified, the resolution was presented at the instigation of the Van Nuys Chamber of Commerce, it is stated. The resolution is in the form of a request that the speaker of the lower house and the president of the senate each name five members to form a joint committee to investigate, during the coming recess, "the desirability" of establishing the college that "shall be free from the control of the University of California."

Assemblyman Hume declares that he is in favor of divorcing agricultural training from the state university and placing it directly under state supervision.

## WRITTEN ON HIS LAST DOLLAR

PORTLAND, Ore. — Across the back of a dollar bill which was received during the course of business at a Portland cigar store is written the story of a squandered fortune, of a futile life and the hope of financial redemption.

## TALKS BY EXPERT PROVING POPULAR

NEXT LECTURE TO BE GIVEN  
ON WEDNESDAY NIGHT AT  
TANNER & HALL ROOMS

Interest in the series of lectures  
being delivered at Tanner & Hall's  
Buick automobile salesroom did not  
lag in the least Wednesday night;  
rather it increased, judging from the  
number of questions that were asked  
Mr. Sanders, the lecturer.

It is predicted that those who attend  
this series are going to know a whole  
lot more about motor engines than  
they did in the beginning. Unless  
for some reason the date should be  
changed, the next lecture will be  
held next Wednesday night.

William A. Tanner, of Tanner &  
Hall, Buick dealers, was able to  
leave the Glendale sanitarium yester-  
day and go to his home at 400 North  
Louise. He will probably be able  
to get back to business sometime  
next week.

## THREE VELIE CARS ARE SOLD RECENTLY

W. C. FREEDY, LOCAL AGENT,  
REPORTS SALE OF AUTOS  
TO GLENDAL E PEOPLE

W. C. Freedy, 246 South Brand  
boulevard, has sold three Velie light  
sixes, model 34, in the past three  
weeks.

These were sold to I. C. Leggett,  
East Wilson avenue; H. M. Way, 433  
N. Louise St., and J. C. Person, pres-  
ident of the Lubrico company of  
Philadelphia, who recently bought  
the Dr. Kate Sheppardson Black or-  
ange grove at 2150 Kenneth Road,  
Glendale, paying \$50,000 for it, it is  
stated.

In countries outside of the United  
States there is one automobile for  
every 2182 persons.

## NEGLECT OF REPAIRS IS COSTLY TO CARS

PLENTY OF WARNING IS GIVEN  
TO DRIVERS, TAKE ACTION,  
URGES H. M. BUTTS

"There is a simple rule of economy  
which is frequently neglected by mo-  
torists through procrastination, per-  
haps, or false economy and that is  
putting off necessary repairs or the  
necessary overhauling of their ma-  
chines. Car owners are often of the  
opinion that as long as their motor  
has enough power to keep the ma-  
chine moving at good speed, even if  
there is a knock in the engine or the  
clutch jumps a bit with, perhaps, a  
back lash jarring the rear end, still  
the car is running, so why overhaul  
or repair it? This may, indeed, be  
false economy," says H. M. Butts, of  
the Monarch Auto Supply company.

"If motorists will jot down in a  
notebook when they need a new  
spark plug, piston ring or any other  
part or supply, just like most car  
owners do in keeping an accurate  
check of expense on oil, gas and tires,  
and then refer to this notebook  
when they go over their cars they will  
save much time in looking over and  
repairing their machines. At the  
same time they will catch repairs be-  
fore they have grown serious and are  
a veritable menace to safe driving or  
a burden to their pocketbook. If  
you will take care of small repairs,  
big ones are not so apt to occur and  
thus large repair bills are avoided."

## VALVE NOT REVERSIBLE

An automobile valve cannot be  
either an inlet or an exhaust. It can  
be an inlet only on the engine, oper-  
ated by the piston's suction down-  
ward. The exhaust valve must be  
forced open against pressure of the  
burned gases in the cylinder and  
therefore must be mechanically op-  
erated.

According to technical experts, a  
finished motor car represents 80 per  
cent labor.

# Why we have faith in the Liberty Six

-----because the Liberty Six motor is capable  
of giving the greatest amount of real  
service to its owners.

-----because of the distinct difference in the  
way the Liberty rides and drives, a dif-  
ference so marked as to cause frequent  
comment.

-----because we know the Liberty organiza-  
tion to be all that can be desired in  
strength and ability to produce a worthy  
automobile.

## MOTOR CARS HAUL MORE THAN ROADS

AUTOMOBILE PROVES VALUE IN  
COUNTRY'S TRANSPORTATION  
SAYS O. F. MEYER

"The motor cars of America car-  
ried in 1919 at least fifty per cent  
more passengers than all the rail-  
roads put together. These figures  
do not include the electric lines.  
However, it is quite certain that all  
the railroads and electric lines com-  
bined could not carry the burden of  
transporting the millions of passen-  
gers the millions of miles that the  
motor car annually carries," says O.  
F. Meyer, local distributor of the  
Oldsmobile, 721 East Broadway.

"The passenger car is an essential  
unit of transportation, destined to  
fill an increasingly important place  
in business and in our every-day  
lives as our population increases and  
its uses become broader.

The development of the motor car  
has done for the family and for the  
individual, just what the railroad has  
done for cities and communities.  
Time and distance have been con-  
quered by gasoline. The passenger  
car increases efficiency and brings  
closer contact between individuals,  
communities and nations.

## BREAK UP FUNERALS IS CHARGE BROUGHT

COMPLAINTS ARE MADE UPON  
ACTION OF SOME DRIVERS  
TO AUTOMOBILE CLUB

The Automobile Club of Southern  
California is in receipt of com-  
plaints from different quarters of the  
ghoulish actions of some unprin-  
ciple motor owners who have disgrac-  
ed themselves and brought odium on  
the entire fraternity of automobilists  
in breaking up funeral processions by  
driving into them or in front of them  
as the funeral cortege was passing.

This is, of course, a violation of  
the law. But it is something even  
worse, for it is an outrageous desec-  
ration of the proprieties, the decen-  
cies, which civilized beings are sup-  
posed to observe towards the dead.  
There is no excuse for such an ac-  
tion, save only where motors are con-  
veying a physician to a dangerously  
ill patient, where an accident has  
happened and a wounded person is  
being conveyed to a hospital or to a  
doctor, and where a house is on fire  
and the fire department is hurrying  
to the rescue. In such dire  
emergencies, the dead must wait for  
the living.

CAUSE OF TROUBLE**NOT ENOUGH AIR IN TIRES,  
SAYS WILLIAM HOOPER,  
OF MILLER AGENCY"Be sure and keep your tires in-  
flated to at least twenty pounds to  
the diameter inch at all times, re-  
gardless of weather or road condi-  
tions." So says Wm. H. Hooper, lo-  
cal Miller tire dealer."The cause of ninety per cent of  
the tire trouble today is under-infla-  
tion.""We all know the tire is the most  
abused part of the present day auto-  
mobile. The tire is built round, and  
if, when being used, it is not inflated  
with pressure sufficient to keep it  
round, there is bound to be a flat  
spot where the tire comes in contact  
with the road. In that way, as the  
tire rolls over, the tread will move  
forward on the carcass, while the  
carcass itself will move back, and as  
the portion of the tread on the  
ground is released it will naturally  
come back to its proper position. Of  
course, there is no great amount of  
weaving back and forward in that  
way, but there is a sufficient amount  
to eventually pulverize the cushion  
gum between the different plies and  
also between the breaker strip and  
tread; and in that way loosen the  
tread and allow the plies to chafe up-  
on each other until the tire will  
eventually blow out.""This applies to all tire construc-  
tion, but if you will follow the sug-  
gestion of the Miller Rubber compa-  
ny, as they have made a careful study  
of why Miller users get additional  
mileage, you will eliminate troubles  
and inconvenience and increase your  
tire mileage."**PROPOSES CHANGES

PROGRESSIVE MOVEMENT  
IN SERVICE HELPSThe up-to-date service station is a  
far more thoroughly equipped insti-  
tution than its predecessor of a few  
years ago, according to Herman E.  
Psenner, of Psenner & Doll, 610 East  
Broadway."The progressive improvement of  
the automobile," he stated, "has  
been accompanied by remarkable im-  
provements in the storage battery  
service station. Where a few years  
back it had but few mechanical ap-  
pliances with which to hasten repair  
work, the situation is different to-  
day.""Take the average Eveready Stor-  
age Battery station for illustration. It  
is equipped with every known me-  
chanical device for not only turning  
out perfect repair work, but getting  
this work out in a minimum of time.  
Time is the important factor with the  
motorist."**Begins to Look Up**"Experience tells me that the av-  
erage motorist is beginning to 'bone  
up' on his storage battery." He is re-  
alizing that the little black box on  
his car, which has been a mystery to  
him, is not a perpetual generator of  
electric energy, but a device which  
will soon go into a fit of tantrums  
unless given some slight attention  
now and then.""He is also beginning to under-  
stand the nature of his battery

it will make it possible for  
a motorist to travel from

code is its recommendation of a sys-  
tem of illuminated license plates.  
Such a provision would greatly re-  
duce the present large number of  
night automobile accidents and  
would make it easier to get the num-  
ber of every car involved in such ac-  
cidents.Other important provisions cover a

hot day just to see if his battery is  
getting too hot," says E. W. Crzek,  
Willard service station dealer, "but  
it pays to keep an eye on overheating  
when hot days and long runs are  
the rule.""At noon and at night the careful  
driver feels of the battery terminals.  
If the terminals seem hot he turns  
on the lights for an hour or two.  
This relieves the battery of its sur-

is taken the battery plates may be  
warped so that repairs will be neces-  
sary.""Another thing to remember is  
that summer heat increases the evap-  
oration of water from the cells. This  
water must be replaced. Many driv-  
ers make it a habit of putting a lit-  
tle distilled water into each cell ev-  
ery week. Of course precautions  
must be taken against putting in too  
much. If a cell is over-full, some of  
the solution will slop out through the  
tiny vent at the top of the jar, and  
will cause rotting of the battery case,  
corrosion of connectors, terminals,  
and so on."

## MILLER CORD TIRE MILE AVERAGE BIG

SOME FACTS AND FIGURES ON  
COMPANY PRODUCTION ARE  
GIVEN BY W. H. COOPER

"The Miller Rubber company's crack tire builders, who are held accountable for every tire they make, are now building Miller cords to a 15,000-mile average in factory tests and Miller fabrics to a gain proportionately large," says William H. Hooper, local agent for the tire.

"Careful tabulation of Miller cord records in the entire state of California shows an average here of 16,250 miles. Price per mile lowered 46 per cent; mileage increased 115 per cent.

"Of course the mileage a tire gives in one state may vary somewhat in another, according to road conditions. But even on the factory test basis this increase of 115 per cent in mileage has lowered the price-per-mile 46 per cent.

**Grows at Fast Rate**  
"In twenty-sixth place in 1911, Miller has grown at a faster rate than any other important tire company in America, until Miller today

## USED CAR SALE UNDER WAY HERE

BIG SLUMP IN PRICES NOW  
AND LOCAL PEOPLE BUY  
BARGAINS OFFERED

There is a big drive on in Glendale in the sale of used cars and it is pointed out this is a splendid opportunity to secure a good car at low figures. According to no less an authority than Collier's Weekly there is likely to be a car shortage next spring, and if this proves to be the case the prices of both new and used cars will probably be much higher than now.

There is a big slump in the prices of used cars right now and those informed say it is the time to secure bargains. Such cars as the Cole and Kissel, which have been run only a short distance, can be bought at reductions of \$1,000 and more. One can find practically all makes of autos in the sales being carried on by some of the dealers of Glendale and some of them are in nearly as perfect condition as they were when they left the factories.

is one of the "Big Four" of Akron, Ohio, the tire and rubber center of the world. This inspiring success is due to the fact that tire users want Miller results and have found there is only one way to get them.

"Just \$1,136.419 has been spent to perfect Miller cord tires alone. They are constantly testing new ideas. When one shows added mileage they adopt it. By doing so they save Miller users millions of dollars. One thousand tires are worn out yearly in the factory tests, 250 tires are kept constantly running on machines, under observation.

### GARAGE ON GROUND FLOOR

The automobile garage at the rear or side of the house is passing out of style. Better class homes erected nowadays have the garage built in the ground floor. This can be done without marring the appearance of the residence in the least, saves expense, and makes the garage much more convenient.

- that Buick users are Buick salesmen.
- that Buick car values are 100 per cent.

Added to their recognized high service value the new Buick models possess a distinctive beauty. Their graceful lines and handsome appointments merit the pride which early buyers have expressed.

Nineteen Twenty One Buick automobiles have more improvements than any Buick models in the past five years and 1921 models represent 25% greater used car values.

Many of our spring deliveries are already contracted for. Thousands have been disappointed during past years because of the shortage of Buick cars.

### Thompson's Graphite Penetrating Oil

STOPS SQUEAKS—DISSOLVES RUST

It Goes Through—and, as it Goes, it Lubricates. Simply squirt a few drops along the edge of each leaf. In five minutes the oil will seep out on the other side. It dissolves every particle of rust, (the thicker and redder the rust, the faster it works), and leaves a film of dry graphite which lubricates perfectly and which will not collect dirt. It penetrates—finds the squeak—and cures them. You could not do the job as thoroughly if you were to take the springs apart, polish each leaf and apply the graphite by hand. Thorough and lasting. In pint cans.

## SOME DIRECTIONS

INSTRUCTION GIVEN TO ANY  
WISHING TO COUNT NAMES  
IN CITY DIRECTORY

Should anyone desire to count the names of the people in the new city directory, he would be at a loss to determine just who in the north part of the city should be counted for Glendale and who for Casa Verdugo, so erratic is the boundary line.

A few simple directions will clear up the puzzle. All of Ross, Mountain, east of Central avenue, Randolph, and Lorraine streets, Melrose and Viola avenues, Valley View Road, and the north side of Kenneth Road, are outside the city. Louise and Campbell north of No. 1134 are outside, also Maryland north of 1200 and Brand north of 823; Central avenue north of 800, the east side of San Rafael avenue in the 1100 block and all of Stocker east of 400, Columbus avenue north of the 1100 block, the west side of Pacific avenue north of the Wash and the east side of the same above 1300; also Highland avenue and the east side of Grand View avenue north of Kenneth Road. That part of Sixth street between Pacific avenue and a point one-half mile east of Grand View avenue is outside the city also.

All other territory covered by the directory can be counted as Glendale. Quite a number of people living west and south of the Southern Pacific tracks are served by the Glendale public service department with water and lights, but they do not live in the city, hence are not listed. This includes the Park avenue tract and the Atwater tract.

### KEEP WARM AS YOU WAIT

By paying an annual fee to an electric light company in London, Ont., motorists are permitted to attach a wire from current taps on poles at convenient points throughout the city and heat their radiators while the car is left standing in cold weather.

### BERMUDA TO USE TRACTORS

In spite of the fact that Bermuda prohibits the use of automobiles, it has been decided to permit the importation of small tractors because of the prohibitive cost of horse power on farms there.

The federal trade commission reports that ten wheat mills hold a monopoly of the wheat flour milling industry in the United States. These mills manufacture more than half the flour used in this country.

A new counterfeit \$10 bill is being circulated. The bill is about a half an inch shorter than the genuine currency and instead of being black the face is brown. The number is given as J7509902A.

A new steamship line has been established between Rotterdam and the west coast of South America by the Pacific Steam Navigation company. It is reported that the line will serve the Rhine valley, Basel and Zurich.

Men and women working in laven-der, whether gathering or distilling it, are said never to suffer from neuralgia or nervous headache. Laven-der, moreover, is as good as a sea voyage for giving tone to the system.
